
CAREER OBJECTIVE

Aspiring Software Engineer with strong knowledge of Java, Software Testing, and Data Structures, along with hands-on experience in developing and testing full-stack applications. Skilled in SDLC, REST APIs, debugging, and database management. Familiar with AI/ML and Data Analytics concepts, with the ability to build scalable solutions and analyze data-driven problems.

TECHNICAL SKILLS

Skills: Java, Python, SQL | OOP, DSA, SDLC | Manual & API Testing (Postman), Debugging | HTML, CSS, JavaScript, React, Node.js, Express | MongoDB, MySQL | Azure (Basics) | AI/ML & Data Analysis (Basics)

Tools: Git, GitHub

EDUCATION

GIET University, Gunupur, Odisha (2022–2026)

Bachelor of Technology – Computer Science & Engineering

Devine Higher Secondary School, Nayagarh (2022)

Intermediate in Science

PROJECTS

HealthSphere – OPD Booking & Healthcare System (*Feb 2025*)

- Developed a full-stack healthcare application for **OPD appointment booking and management**
- Implemented **role-based authentication** (Admin, Doctor, Patient)
- Designed and tested **RESTful APIs** for appointment workflows
- Performed **API testing and debugging** to ensure reliability
- Managed file uploads (PDF/JPG) and database integration
- Tools:** React.js, Node.js, Express.js, MongoDB, Postman, JWT, Git

Sales Performance Dashboard |

- Designed a dynamic Power BI dashboard to monitor sales KPIs including revenue, profit margin, and regional performance trends.
- Implemented DAX measures and slicers to enable interactive analysis by sales representatives and product categories.
- Performed data cleaning and transformation using Power Query and Excel.
- Tools:** Power BI, DAX, Power Query, Excel, Data Modeling

NutriSathi – AI-Based Nutrition Platform (*Apr 2025 – Jun 2025*)

- Built a MERN-based application with secure authentication and API integration
- Developed AI recommendation system (Random Forest) for personalized suggestions
- Created dashboards for data visualization and analytics
- Integrated ML models with backend APIs and ensured end-to-end functionality testing
- Tools:** React.js, Node.js, Express.js, MongoDB, Python, Scikit-learn, Pandas, JWT, Git

MERN Stack Developer Intern

Sparks To Ideas (May 2025 – July 2025)

- Developed and tested web applications using MERN stack
- Performed **API testing, debugging, and database validation**
- Worked on **authentication systems and backend logic**
- Improved performance and reduced manual effort by **35%**
- Followed **SDLC practices and version control (Git)**

Certifications: Advanced Power BI Certification, Data Analyst – LinkedIn Learning, Data Analyst – NPTEL, Deloitte Australia Data Analytics Job Simulation (Forage), Tata Data Visualization & Business Insights (Forage), Data Science – Devtown, DSA – Apna College

ACHIEVEMENTS

- Smart India Hackathon (SIH) 2025 – Grand Finalist
- HackerRank: 5star Java | 3star Python | SQL
- Awarded Best Intern for workflow automation and efficiency improvement
